DEFINITIONS

Certified Craft Distilled Spirit: A declaration by ADI that a spirit has been distilled or re-distilled on-site at an independently owned distillery that has annual sales of less than 100,000 proof gallons.

Certified Craft Blended Spirit: A declaration by ADI that a spirit, bitters or aperitif/fortified wine has been materially changed via blending, compounding, maceration, or secondary aging by an independently owned liquor producer that has annual sales of less than 100,000 proof gallons.

¹**Merchant Bottled Spirit:** A spirit owned by a liquor company or brand that plays no physical role in the distillation, blending, compounding, macerating or secondary aging of a spirit, bitters or aperitif/fortified wine. Spirits that are produced elsewhere and are simply proofed down and/or filtered by the brand owner falls within this definition.

²**Blended Spirit:** A spirit, bitters or aperitif/fortified wine that has been materially changed via blending, compounding maceration, or secondary aging by a liquor producer.

³**Distilled Spirit:** A spirit that has been distilled or re-distilled on-site at a distillery. Distilled spirits are a single award category separated by region.
